

👁️ what visibility is given to what, to whom?

Intersections of Care @ Wiels, Open School / Risquons-Tout September 12, 2020 to January 10, 2021

Intersections of Care presents a display, an environment and a discursive program gathering artefacts, humans and non-humans, to share questions and tools for organising, sharing and caring. The different elements unfold in the spaces and times of the events program, in the exhibition catalogue and in cyberspace on [intersectionsofcare.net](http://www.intersectionsofcare.net)

Thought as an expanded publication, the installation weaves together oral, written, visual stories, and combines fluid and evolving forms, floating textiles, mobile and permeable elements digital and analog, bodies, plants and minerals.

This proposition is constructed in close dialogue with artists and artworks that address issues of care, maintenance, storytelling, conditions for being and working together.

With works by: [Sofia Caesar](#), [Laurie Charles](#), [Clémentine Coupau](#), [Juliana \(Juliana Vargas Zapata and Juliane Schmitt\)](#), [Josèfa Ntjam](#) and [Golnesa Rezanezhad](#).

Program

Saturday 17.10.2020, 15:00 – 20:00 Caring, healing, access
